

GBC 'Mega' Pipe Stands

Heavy duty pipe stands for large diameter and heavy wall pipe

The GBC MEGA PIPE STANDS are a great addition to the GBC range of pipe jacks. These stands provide the best solution for working safely on large diameter, heavy wall pipes. The heavy duty polyurethane over steel wheels have sealed bearings for smooth pipe rotation. And the twin heavy duty solid acme rods ensure precise height adjustment, even under load.

Part No.	Load capacity KG	Height Adjustment	Pipe Size
PJM/LP	1800	600 - 900mm	2"-48"
PJM/HP	1800	965 - 1600mm	2"-48"

Features and advantages

- Weight certified to 1800kg
- For pipe up to 48" diameter
- Height adjustable
- 6" x 3" Heavy duty polyurethane wheels
- Suitable for carbon, stainless & exotic materials
- Heavy gauge steel construction
- Powder coated safety red for high visibility
- Lifting eyes for easy movement
- Low and High Profile models
- Optional castor wheels for pipe transportation
- Made in UK
